## Preface

I don't know exactly how one goes about proving that they are related to, or descended from a particular person. Clearly genealogy is not an exact science, and at best is sometimes a quite difficult task. Many records are incomplete, missing, or previously destroyed. Often times, written records were simply not kept. Whenever and wherever possible the information contained in this book is accurate, and based on facts. A substantially large portion is based on U.S. Census records, recorded wills, and other legitimately recorded transactions, however, in some instances, the recorded facts are not available. Every effort has been made to make this Lifsey family genealogy as complete and accurate as possible. Even though there are a great many errors and omissions, hopefully it will serve as a foundation from which some future family genealogist may build upon. It has been a labor of love and has increased my own awareness of the importance of my own family to me. In the fast paced, hurry-up world of today, where many families are widely separated and soon forgotten, it has helped to restore the true value of my own family to me.

Many people go through their entire lives knowing very little or nothing about where their families came from and sometimes caring very little about present family relationships. My purpose in writing this chronicle has been to gather and assemble all the known information on the Lifsey family and to preserve it for future generations to come. Memories fade and records become irretrievably lost. This awareness has added impetus to my yearning to get it all down on paper while the time yet remains.

Again, I must apologize for the errors and omissions. It was not intentional. If you, the reader, are aware of any errors or wish to contribute additional information please send your comments to the address listed below. I will make every effort to include any new information into future additions of this book.

## Introduction

Almost every family has some family history that has been passed down from generation to generation. We all have our own genealogy and traditions. My family, the Lifsey family is no exception. I can remember as a child going to visit relatives in Barnesville, Georgia, and thinking how neat it was to have so many Lifsey's living there. My experience had always been that we were the only family with that name. I can remember my uncle talking about relatives whom I never knew, and their families.

In the mid 1980's, I was living at Ft. Bragg, North Carolina and was reading the Sunday paper one day, and noticed a wedding announcement which contained the name Lifsey. How odd, I thought, that there are Lifsey families all the way over here in North Carolina. In my job, I routinely traveled and one of the first things I always did on my trips was to look in the telephone directory wherever I was, and see if there were any Lifsey's listed. Usually there were not. I was quite confident that all my Lifsey relatives lived in and around Barnesville, Georgia.

At this point in time, family genealogy was becoming quite popular. That particular Sunday afternoon, I began what would later become a lifelong, never ending; never completed project, which would occupy a great deal of the rest of my life. I began to compile the Lifsey family genealogy. I read how to books and did research on how to do genealogy and began to keep my information in a loose leaf notebook. I was careful to keep a separate page for each person, and even used standard individual and family group sheets that I copied from a library book on genealogy. I began to talk with other relatives and to compile their family histories. I also began to compile data on my wife's family. When my son was born, the intensity increased. I wanted to pass along this information to him so that he would understand the history of his family and his name.

Over the next fifteen years my collection grew from a few pages in a loose leaf notebook to a 3800 name genealogy requiring a sophisticated computer data base with each individual record being given a number.

Throughout this book you will notice a number in parentheses beside most of the names (RN= 1), or (ID =1). This indicates "Record Number = and a number ". These numbers are unique to my system and are only used to distinguish one record from another, for easy location in the computerized data base.

Because of the length of the Lifsey Family genealogy, it is bound in two volumes, Vol I includes the Early Virginia Livesay/Lifsey family and the descendents of Benjamin, i.e. the Georgia Lifsey family descendants. Vol. II, includes the Tennessee, Virginia, and North Carolina Lifsey family descendants.

### YOUR NAME

You got it from your father,  
It was all he had to give.  
So it's yours to use and cherish  
For as long as you may live.  
If you lose the watch he gave you  
It can always be replaced,  
But a black mark on your name, Son,  
Can never be erased.  
It was clean the day you took it  
And a worthy name to bear.  
When he got it from his father,  
There was no dishonor there.  
So make sure you guard it wisely;  
After all is said and done,  
You'll be glad the name is spotless  
When you give it to your son

## Acknowledgements

Much of this information would not have been possible without the help of Robert J. Lifsey,(RN=216), Wichita Falls, Texas; Mrs. Alan Babin (RN=256), and Mrs. William Kee Lifsey (RN= 216), Emporia, Virginia, who have unselfishly contributed a great deal of the information contained in these pages. Robert provided an immense amount of information on the Tennessee Lifsey Family, Mrs. Babin, provided information about the Lockhart line of the Lifsey Family (North Carolina), and Mrs. William Kee Lifsey provided information about the Virginia descendents of the Lifsey family.

A special thanks goes to Mrs. Amanda Wood Lifsey Mackinnon (RN=287) of Flint, Michigan, who contributed the work done by her uncle, Col Charles Quillian Lifsey (RN=701) about the Georgia Lifsey family descendents.

The Livesay Historical Society - who has worked closely with Lifsey family descendents to establish a link between the two names and spellings. Work continues in that area.

A special thanks to my cousin, Lester Lifsey (ID= 36 ) of Barnesville, Georgia, who rekindled my interest in the Lifsey family history and genealogy, and who along with his son Britt Lifsey (ID= 269), has kept the tradition of the Lifsey family reunion on the third Sunday in July, alive.

The Lifsey family records that I have accumulated over the years are kept in two separate personal computer based geneological program. The original version was kept on Family Roots Software on an Apple IIe computer. It was later transferred to Family Roots software on an IBM compatible computer. The records are still maintained in that format. The current records are kept on Family Tree Maker software in a Windows environment . In addition to the many descendents and ancestors charts in this publication, the text information was compiled, edited, and printed in Microsoft Word software.

## About This series

This booklet is one of five short publications about the Lifsey/Livesay family history and genealogy. Previous editions of this work have combined the entire history and genealogy into one large, complex volume. This edition, separates the Lifsey/Livesay family history into five distinct, volumes. It makes it much easier to provide information to those who are interested in the Lifsey Family history and Genealogy, in a much more compact manner.

The first Volume, **The Early Virginia Lifsey Family, is** about, the Lifsey/Livesay family in Virginia from the first known ancestry, John Livesay, who died in Brunswick County Virginia in 1720, through his Great-Great Grandchildren.

The second Volume, **The Virginia Lifsey Family**, is about the descendents of Littleberry Lifsey, the Great-Grandson of John Livesay. This family constitutes the Virginia Line of the Lifsey Family, and extends to current generations today.

The third Volume, **The North Carolina Lifsey Family**, is about the descendents of Jane A. Lifsey, who married Charles Lockhart of North Carolina. This family and its descendents form the basis of the North Carolina line of the Lifsey family, and extends to current generations today.

The fourth Volume, **The Tennessee Lifsey Family**, is about the descendents of Edwin Lifsey, whose family moved to Tennessee between 1800 and 1810. This family and its descendents form the basis of the Tennessee line of the Lifsey family, and extends to current generations today.

The fifth Volume, **The Georgia Lifsey Family**, is about the descendents of Benjamin Lifsey, who, with his father John Lifsey, Jr., and wife Hollen Allen, left Virginia sometime after 1793, and after living in Anson County, North Carolina for a period of time, moved to Hancock and later Morgan County Georgia. This family and its descendents form the basis of the Georgia line of the Lifsey family, the largest branch, and extends to current generations today.

The sixth Volume, **Supplement to the Lifsey Family History & Genealogy**, contains miscellaneous information, about all the Lines of the Lifsey Family. It includes a listing of all known addresses of current Lifsey families living in the United States, both identified and those not yet identified with any particular line. It also contains information about certain "lost" Lifsey Family members - those for whom I have found some sort of genealogical reference or document, but have not yet identified that particular Lifsey family member referenced.

Volume VI now includes a section on Lifsey cemetery markers at Fincher United Methodist Church Cemetery, a section on Lifsey cemetery markers at other cemeteries (includes all branches of the Lifsey Family, and a section on old, interesting, and unusual Lifsey photographs and documents.
